-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Drawings***

1. The drawings were received on 2/14/05. These drawings are objected to because Figure 3 depicts a flow chart having a double-pointed arrow originating from step 315. Arrows originating from decision blocks in flow charts normally point in a single direction. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

**Specification**

2. The disclosure is objected to because of the following informalities:
- Paragraph 15, Line 10: The word --as-- is needed after "such".
  - Paragraph 20, Line 4: An article --a-- is needed before the word "microprocessor".
  - Paragraph 31, Line 9: The specification mentions an output line No. 269. There is no line No. 269 in the drawings.
- Appropriate correction is required.

3. This application is in condition for allowance except for the following formal matters:

As noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

4. The following is a statement of reasons for the indication of allowable subject matter:

Plenty of traffic enforcement devices have taken pictures of speeding cars when the offending vehicle has surpassed a given speed such as the device taught by **Nelson** [U.S. 5,515,042]. However, there is no prior art device that activates an in-car

Art Unit: 2636

video system with video recorder and also outputs an alarm signal upon the speed of the car having the in-car video system exceeding a given speed. This is considered novel and unobvious.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

**Klashinsky et al** [U.S. 5,617,086] comprises a set of in-road sensors for monitoring traffic.

**Dunne et al** [U.S. 5,938,717] automatically captures the image of a moving vehicle.

**Perterson** [U.S. 6,262,764] incorporates a VCR in a police vehicle.

**Poland et al** [U.S. 6,681,195] measures speeds of vehicles and captures images of said vehicles.

**Zierden** [U.S. 6,690,294] detects violations of speed limits using a digital camera.

**Trajkovic et al** [U.S. 6,696,978] identifies vehicles traveling excessive speeds.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. Tweel, Jr. whose telephone number is 571 272 2969. The examiner can normally be reached on M-F 10-6:30.

Art Unit: 2636

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeff Hofsass can be reached on 571 272 2981. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
